INDONESIA: Future Halal Market Hub

Indonesia is the world's largest Muslim majority country. Over 88 percent of Indonesia's population is Muslim, and the country is well positioned to be a hub for Halal products in Southeast Asia.

The business potential of halal industry in Indonesia is actually very powerful and has a great opportunity to globalize. Indonesia also has a large number of demographic resources where 87.18% of the 237,641,326 million total national population are Muslims.

Indonesia is also keen to make its Halal industry attractive for investors. The government recently passed industry regulations and has earmarked new sites for the development of Halal industrial clusters.

The global Muslim population is expected to reach 2.6 billion, or 30 percent of the total world population, by 2050 and by 2019 annual global spending by Muslim consumers will reach an astronomical US\$73 billion. Close to 90% of the population in Indonesia is Muslim and thus interested in halal certified products.
